# EXPOSED

USDA'S SECRET WAR ON WILDLIFE

MEET THE  
WHISTLE-BLOWERS

"Millions of Americans will learn, through watching EXPOSED, of the unforgivable actions of those who have exercised their power to cause untold agony to thousands of innocent fellow creatures on our planet."

*JANE GOODALL, Ph.D., DBE Founder, the Jane Goodall Institute & UN Messenger of Peace*

"What The Cove has done for dolphins and Blackfish is doing for large cetaceans, EXPOSED will do for predators. This film should be required viewing of politicians and citizens across the nation."

*DEBRA MERKIN, Ph.D., Assoc. Professor, School of Journalism & Communication, Univ. of Oregon*

"This film clearly exposes an entrenched culture of brutality and indiscriminate slaughter, revealed by courageous whistle-blowers."

*JIM & JAMIE DUTCHER, Emmy Award-winning documentarians, founders of Living with Wolves*

"Wildlife Services' horrific, intentional and secret slaughter of millions of native species and countless pets in the name of 'coexistence' is appalling. They could easily be called 'Murder, Inc.' They need to be put out of business."

*MARC BEKOFF, Ph.D., Professor Emeritus, Ecology & Evolutionary Biology, Univ. of Colorado*

In this award-winning film, three former federal agents and a Congressman take on the USDA's barbaric, wasteful, and utterly misnamed "Wildlife Services" program and expose the secret war on wildlife being waged with your tax dollars.

This agency has had their way for almost a century—killing, maiming, poisoning, and brutalizing millions of wild animals a year, and harming humans and pets in the process.

They think they can keep getting away with it. With your help, we can stop them.

Help us end America's war on wildlife. Attend a screening of "EXPOSED":

**WEDNESDAY, SEPTEMBER 16, 2015, 6:30 p.m.**  
**Nevada Museum of Art, 160 W. Liberty St., Reno, Nevada**

These films are brought to you by Predator Defense, a national nonprofit advocacy group working to protect native predators and create alternatives for people to coexist with wildlife. Our efforts take us into the field, onto America's public lands, to Congress, and into courtrooms. Learn more and support our work at [www.predatordefense.org](http://www.predatordefense.org).
